Mayors Report: Mayor Letica; "On Thursday October 14 the Village's Sanitation Operator Barry Bradley did his last pick up for the Village and hung up the keys to big blue. We wish Barry best health and happiness in his retirement. The new sanitation company, Total Collection Services, began pickups the following weeks. Although there were a few growing pains the new contractor is doing an excellent job. The consensus of the residents I spoke to is that they miss Barry but are very happy with the new expanded service. The Village has begun working on getting bids to sell the garbage truck.

The Village and the Asharoken PBA held their first negotiating session to work on the new contract. A second meeting is scheduled for later this week.

The Village has begun work on updating the existing sanitation and beach fire laws.

The gas main project is essentially completed. The final connection to Beach Plum Road was made yesterday. NG needs to come back one more time to disconnect the old main at Village Hall to be done. I would like to thank everyone for their patience, understanding and cooperation during this long construction project. The road will be fixed, paved, and striped in the spring. I met with Verizon to get them to go through the Village and neaten up all their wires that are either dangling or coming unlashd from their support wires. They were in the Village yesterday fixing all their loose wires.

54 Lastly, I reached out to all the newly elected people in Huntington to congratulate them and express
55 my desire for the Village and Town to continue to work together in the cooperative manner that we
56 have over the last ten years.
